C(lie)mate Chains = “the lies that enslave us”

The word “climate” isn’t spelled with a “lie” in it. However, when the word climate is spoken, you can hear the “lie” in it.

The quotes in this book are from the spoken words of political leaders. You can hear the “lies” in c(lie)mate, when they speak it.

The phrase “climate change” has lost its meaning. Everything changes.

A better word in the climate debate is “chains,” defined as “shackles to enslave us.”

Political leaders hide the truth about climate. Their c(lie)mate is filled with “the lies that enslave us.”

*“I command
the climate
to change.”*

His Royal Highness, King Joe

FACT: To control the climate, Your Highness, you need to control the sun.

- Solar Cycles, Not Human Activity, Drive Earth's Climate

“America’s climate policy will be determined by scientists and experts, not politicians and polluters.”

Nancy Pelosi (D-CA.)
Jan 27, 2021

FACT:

Politicians will continue to determine America’s climate policy as long as they can milk the cash cow known as the carbon tax.

- [Global Warming Models Collapse](#)

*“Climate Change is
an existential threat
to our species.”*

Kamala Harris
Vice Prez

FACT:

No. An existential threat to our species is the damage done to our lives and the planet by the ignorance of our leaders, who conjure policies based on myths, lies, voodoo, bribes, and wishful thinking.

*Impacts of Climate Change: Perception and Reality

“The science tells us we have to spend \$2 trillion to do the things we need to do.”

John Kerry,
special presidential envoy
for climate Jan 27, 2021

FACT:

What? What? What science are you listening to? The global warming alarmists, who have not gotten one prediction right in 30 years? Or, the real scientists, who can help you to prepare the population with what people will actually need to survive a decade or two of freezing temperatures. If you don't prepare them for a frozen earth, John, how are you going to explain to them why you failed?

- [The Earth Is Actually Cooling](#)

If we fail to reduce the emission of greenhouse gases, deadly heat waves and droughts will become more frequent, coastal areas will flood, and economies will be disrupted.

State of the Union
Bill Clinton (X-prez)
Jan 27, 2000

FACT:

The Explainer-in-Chief muttered these words 20 years ago. Society did fail to reduce CO2 gas and none of the scary threats happened.

**** Consensus Is Not 97%***

“The Climate Crisis is a National Emergency.”

Chuck Schumer D–N.Y.)
Feb 1, 2021

FACT:

There is no climate crisis. The national emergency is to get the politicians to stop their incessant lying about carbon dioxide in order to justify taxing citizens with phony allegations that citizens are causing global warming due to their profligate live style. What is needed is a new climate in Washington, DC, where common sense replaces ignorance.

- [Leading Scientists Debunk CO2 Causing Heating](#)

*“The impact of climate change
will reduce the planet to
bacteria and maybe
a few plants.”*

Jerry Nadler (D-N.Y.)
Sep 21, 2019

FACT:

*“We need an
Apollo Project-like
approach to
climate change.”*

Adam Schiff (D-CA.)
Jan 4, 2021

FACT:

Good idea. We can load all the politicians who lie about climate change into an Apollo spacecraft and blast them to the moon. Climate problem solved!

- [Comprehensive Attack on Man-Made Global Warming](#)

*“Climate change
is directly related
to the growth
of terrorism.”*

Hillary Clinton
Former Secretary of State

FACT:

The climate terrorists are the politicians, who never stop beating the drums of terror and fear into the minds of their citizens in order to continue the charade that catastrophic warming is the fault of the public, who must therefore pay guilt money in taxes for their use of CO₂ causing the end of the world. • [More Than 1000 International Scientists](#)

“No challenge poses a greater threat to future generations than climate change.”

State of the Union
Barack Obama (X-prez)
Jan 15, 2015

FACT:

The greatest threat to future generations are the willful lies of politicians who tax citizens for exhaling a gas that is beneficial to humans. Governments should be paying citizens for generating CO₂.

- [Cloud Research Exposes Obama Lie](#)

*“Climate change is
the existential crisis
of our lifetime.”*

Cory Booker (D-N.J.)
Aug 21, 2019

FACT:

The existential crisis of our lifetime is the ignorance of the politicians, who don't understand 5th grade science. Their dreaded villain, carbon dioxide, helps the planet by growing food. More CO₂. More food.

- [90 Italian Scientists: No Climate Crisis](#)

*“The climate emergency
will determine
the fate of the world.”*

George Soros
Jan 20, 2020

FACT:

No, George.

There is no climate emergency.

The threat to the world is from leaders,
who suffer from a mental disorder
known as “carbonphobia”,
i.e., a fear of carbon.

Lighten up. Get some therapy.

- [300 European Scientists: No Crisis](#)

*“Climate Change
is the existential
threat of our time.”*

Elizabeth Warren (D-MA.)

Jan 3, 2021

FACT:

No. The existential threat of our time is the conceited arrogance of politicians, who demonstrate their ignorance everyday when they exhale carbon dioxide at 48,000 parts per million (ppm) in each breath, while they lecture the public about the dangers of increasing CO₂ levels in the atmosphere from 300 ppm to 400 ppm. More ppm is good.

- [Global Cooling Is Here](#)

*“I am so pleased to be on this telephone call with Greta Thunberg.”
said Maxine Waters.*

“She has been the greatest advocate for what is happening with our climate and the environment.”

Maxine Waters (D-CA.)
Jan 4, 2020

FACT:

One problem. It wasn't Greta on the phone.
It was a Russian prankster.

- [The Climate Change Hoax](#)

*“I’m very worried
because the
climate change
clock is ticking.”*

Ilhan Omar (D–MN.)

Feb 29, 2020

FACT:

The climate change clock has been ticking for millions of years. It is ticking now. And, guess what? It will go on ticking as long as Earth is still spinning. No need to worry! What politicians are invited to worry about is their arrogance that makes them think humans either cause the changes or can do anything about them.

- [Record Colds Impugn IPCC Predictions](#)

*“Climate change
will cause
every coastal city
to go underwater.”*

Alexandria Ocasio Cortez (D-N.Y.)
Aug 28, 2019

FACT:

“The rise of the sea level does not depend on ocean temperature, much less on the atmospheric carbon dioxide (CO₂) level.” (Source: Professor S Fred Singer, atmospheric and space scientist)

- [The Green New Deal is Futile](#)

*“Climate change
will have serious
ramifications for
our economy and
the federal budget.”*

Patty Murray (D-WA.)

Aug 1, 2014

FACT:

When climate change is finally accepted as the hoax it is, the most serious ramification for the federal budget will be the loss of the carbon tax dollars, which are conned from taxpayers every year.

- [Scientists Refute Global Warming](#)

*“Climate change is real.
It is caused by
human activity ”*

Bernie Sanders (D-VT.)
June 2, 2016

FACT:

Not exactly. The fear of climate change is real. It is caused by the lies and fear mongering of politicians, who won't take the time to learn the facts or don't want to know the facts.

- [NASA: The Earth Is Actually Cooling](#)

*“Climate Change
is the threat
that transcends
all others.”*

James Clapper, Spy
(Dec 17, 2020)

FACT:

The only threat that transcends all others is how governments continue to play the “Chicken Little CO2” card in order to con more taxes from citizens to build more bloated budgets to promote more bogus stories about how “the sky is falling.”

- [Climate Change: Imaginary Problem](#)

“Geoengineering could potentially help reverse the warming effects of global climate change.”

John Brennan (Spy)
July 25, 2016

FACT:

That might be true, John. However, NASA forecasts that the earth is in for a decade of global cooling – not global warming.

- [Global Warming Scam](#)

*“We need to put
a price
on carbon.”*

Al Gore, former V-Prez and
instigator of global chaos

FACT:

A price on carbon? What?

Twenty-three percent of the human body is carbon. The body obtains that carbon from the food it consumes. Hey, Al, would we have to pay for the carbon our bodies use to survive? Would we pay monthly or yearly? Where do we send our checks?

- Chicanery Demonizing CO2 as pollution

“The climate crisis represents one of the greatest threats to our nation’s interests and the wellbeing of its people.”

Steny Hoyer (D-Md)

FACT:

Au contraire, the climate crisis represents the greatest opportunity fabricated by control driven politicians to dumb down citizens into accepting lies and platitudes about the guilt they must bear for their roles in causing the alleged demise of planet Earth.

- [Solar Cycles Drive Climate](#)

Bill Gates, Guru

Aug 5, 2020

“The loss of life and economic misery caused by this pandemic are on par with what will happen regularly if we do not eliminate the world’s carbon emissions.”

FACT:

Human farts are 10-30% carbon dioxide.

Bill, it will be a challenge to eliminate those emissions.

Unless maybe someone could conjure a virus or a vaccine to eliminate them!

- Fossil Fuel is “Green Energy”

“We are in a planetary emergency. Take this virus as Earth’s slap on our collective face. Treat the pandemic as a warning from the planet about climate change.”

Michael Moore, film maker
Planet of the Humans

FACT:

“Emergency” Yes. “Warning” Yes.
However, “Slap on the face” is too mild
to describe the climate disasters ahead.
No, not global warming!
NASA predicts 10 to 15 years of
freezing cold weather. Expect crop losses,
food shortages, hypothermia.

- [Climate Corruption](#)

Greta Thunberg
Rant to United Nations
Sept 23, 2019

How Dare You?

FACT:

Greta, I double dare you to escape from the brainwashing and indoctrination you are subjected to by your captors.
